In an uncertain world, security can seem out of reach. And while that may be true for some aspects of life, financial safety doesn't have to be one of them.

As a member of the American Chemical Society, you have access to competitive and portable group term life insurance so you can help protect those you love most. This policy lets you renew your coverage annually—providing you the flexibility to update your benefits each year as your financial needs change. Take control of your family’s financial destiny with one of the smartest, most practical forms of life insurance around.

**Highlights include:**

- **Spouse/domestic partner coverage**
  Your significant other deserves the opportunity for financial stability just as much as you do. This policy makes it convenient for you and your spouse or domestic partner to consolidate your coverage under one umbrella.

- **Coverage for eligible dependent children (under age 30)**
  Insuring your child can mitigate financial hardship if you face an unthinkable event. Our term life coverage is built for the whole family.

- **Member-only rates made possible through group purchasing**
  Group purchasing allows us to offer rates that may not be available through an individual policy.

- **Disability provision**
  Our policy gives you the option to withdraw $25,000 of your benefit amount over a five-year period if you become totally or permanently disabled before age 60. This is just one more way our coverage helps protect your finances when something goes wrong.

**Portable coverage that stays with you, even if you change jobs**

If you have life insurance through your employer, you'll lose it if you change jobs. Not so with our policy—you can take it with you wherever you go.

- As long as you pay your premiums when due, maintain your ACS membership, and the group policy remains in force.

**Premium credit**

Each year, our insurance Board of Trustees reviews the prior year’s claim experiences to determine whether a premium credit can be issued. This year, insureds of this policy have a 20% premium credit—meaning they only have to pay 80% of the gross premium amount.

- Premium credits are not guaranteed and vary from year-to-year, depending on claims experience.

**QuickDecisionSM option**

If you apply for $250,000 or less in coverage and meet certain eligibility criteria, you can qualify for a streamlined approval process that can provide coverage in as little as 24 hours.

- Most QuickDecisionSM applications can be processed without the need for follow-up; however, in certain cases a representative may need to contact you to verify information or arrange a visit with a medical professional. QuickDecisionSM is not available for residents of CA, MT, MN, and VA.

Wondering about the practical applications of life insurance?

Here are three scenarios for you to consider:

You are the primary breadwinner for your family.

People buy life insurance to ensure their family’s needs are met. If you pass away, life insurance can help cover critical expenses when your loved ones may need it most. This can include things like burial costs, tuition, mortgages, and even daily necessities like clothes and groceries.

Life insurance is one of the best ways to make sure your family will have help meeting their needs after you’re gone.

You’re a stay-at-home parent.

Though your role doesn’t bring in income, it’s invaluable nonetheless—managing a household and raising children are big responsibilities. You recognize this fact and take out a life policy. From chauffeuring your kids to school and extracurricular activities to keeping the family budget on track, the part you play in the life of your loved ones is critically important.

Life insurance can help make sure those household management duties continue uninterrupted if you’re no longer around.

You’re a single, young professional.

You’re young and healthy, so you think life insurance won’t be necessary until you’re older and have a family.

But if you have siblings or relatives you financially support, life insurance should still be a consideration. And even if you don’t, you may have other debts to pay off.

Life insurance will help make sure your financial burdens don’t get passed on to any cosigners, family members, or your estate if you pass away.
**Who qualifies for this coverage?**

All ACS members and Society Affiliates who reside in the U.S.* (except territories), Canada (except Quebec), or Puerto Rico may apply for Basic Group Term Life ($25,000) protection. ACS members and their spouse/domestic partner, under age 70, may apply for additional coverage to $2,000,000 (in $5,000 increments); spouse coverage may not exceed member benefits. All unmarried, dependent children underage 30 are also eligible for coverage—$7,500 for children one year and older; $400 for children under one year.

A dependent who is also an ACS member is eligible for either member or dependent coverage, but not both. If both spouses/domestic partners are covered as members, neither may insure the other as spouse/domestic partner and only one may insure any eligible children.

The aggregate maximum amount of life insurance in force for all New York Life ACS Group Life Insurance policies may not exceed $2,000,000 per insured individual.

*Certain state eligibility restrictions apply

**What value-added features are included in the policy?**

$15,000 of Accidental Death and Dismemberment Coverage—automatically included in members’ coverage to provide additional protection in the event of a fatal accident or covered accidental injury such as loss of limbs or eyes. See Certificate of Insurance for specific amounts.

Disability Provision—allows you to collect $25,000 of Basic Group Term Life Insurance over a five-year period if a total or permanent disability occurs prior to age 60 (member coverage only, see Certificate of Insurance for details). The application must be made no later than one year from the date you become disabled. The premium on any additional coverage will be waived while the total disability continues.

Inflation Guard—lets you increase your insurance amount by 10% for 10 years, gradually doubling it. If approved, the increase is automatically included each year as long as you are under age 55 and not totally disabled. Simply choose to accept or decline the additional 10%, but once declined, it cannot be resumed. Your total premium increases annually to reflect your increased benefit amount at your then current age. (Member and Spouse/Domestic Partner coverage only. Not available to children.)

Accelerated Death Benefit—provides you and your Spouse/Domestic Partner (if covered) with the option to apply for one advance payment up to 75% of your in-force life insurance while alive, if you’re diagnosed as terminally ill with a life expectancy of 12 months (Illinois residents: 24 months) or less. You can use all the money received under the accelerated death benefit in any way you choose—pay bills, maintain your quality of life, or for any other financial obligation—to help ease the burden during a difficult time. For terms, conditions, and limitations, please see the Certificate of Insurance. Full premiums continue to be payable. Please note that receipt of accelerated death benefits may affect your eligibility for public assistance programs and may be taxable. You should consult with the appropriate social services agency and seek the advice of a qualified tax advisor prior to applying to receive such benefits. Amount received at time of insured’s death will be reduced by any payment made under this benefit.

Does ACS provide any premium credits?

Yes! The Board of Trustees, Group Insurance Policies for ACS Members regularly approves premium credits on new and renewed policies. The premium credit for 2021 is 20%, and the Term Life Policy Trust Fund pays these credits to the insurance carrier. That means that in addition to the group discount you receive as an ACS member, you pay only 80% of the gross premium. Premium credits are not guaranteed and vary from year to year, depending on claims experience.

**QuickDecision SM**

QuickDecision SM—coverage up to $250,000 (for those under age 65) may be eligible for automated underwriting, which allows the carrier to make an underwriting decision in real time. Based upon information gathered and medical questions answered online during the application process, a decision to approve your request for coverage can be delivered faster than ever before.*

*Most QuickDecision SM applications can be processed without the need for follow-up; however, in certain cases a representative may need to contact you to verify information or to arrange a visit with a medical professional. QuickDecision SM is not available for residents of CA, MT, MN, and VA.
30-Day Free Look
If you are not completely satisfied with the terms of your Certificate of Insurance, you may return it, without claim, within 30 days. Your coverage will be invalidated and you will receive a full refund of any paid premium—no questions asked!

When would my coverage take effect?
Coverage is effective on the day of approval of your application, provided you pay your premium when due and are performing normal activities of a person in good health of like age on that day. (Residents of Maryland and North Carolina: Any reference to “performing normal activities of a person in good health of like age” is replaced by the requirement that the health status of any proposed insured person remain the same as stated in your application.) If you are temporarily disabled at the time your application is approved, coverage will be effective on the first day you return to normal activities. Coverage for dependents will be effective on the same day as your coverage, provided they are not totally disabled on that day. Additional coverage for you or a dependent spouse/domestic partner will become effective on the day of approval of the application by the insurance company. All applications for coverage are contingent upon New York Life Insurance Company’s approval of satisfactory evidence of insurability.

When Coverage Ends
Coverage will end if:
- Premiums are not paid when due
- The group policy is terminated or modified by the policyholder to end insurance for the group of insureds to which the member belongs
- Your ACS membership terminates; or
- The insured requests to terminate the insurance.

Dependent coverage will terminate when the dependent spouse/domestic partner or child ceases to be an eligible dependent. Coverage for children terminates at age 30.

## HOW TO CALCULATE YOUR SEMIANNUAL COST:

The amount of life insurance for you and your spouse is based on each person’s age at their last birthday. To find the semiannual premium contribution for members or spouses, find your age, and multiply the amount shown per $1,000 for the amount of insurance you need. Example: Member age 42 requesting $250,000 of insurance rate with the 20% premium credit. 0.307 x 250 = $76.75. Add the cost for spouse with the same calculation and then add children’s coverage to the cost if this additional coverage is requested. You will be billed semi-annually, April 1st and October 1st.

## IMPORTANT INFORMATION:

The premium contributions shown reflect the current rates and benefit structure (as of Jan. 1, 2021). Premium contributions may be changed by New York Life on any premium due date, but not more than once in any twelve-month period, and on any date on which benefits are changed. Benefit option amounts are subject to change by agreement between New York Life and the Board of Trustees.

The Annual Rate is the Semiannual Rate shown times a factor of 1.985. Premiums increase on the premium due date coinciding with or next following the date that a member enters a new age bracket.
